

Industrial Masking Tapes

SPECTAPE®

We offer a range of masking and paper tapes to meet the demands of the job, whether varying adhesion levels, temperature resistance, clean removability, flexibility to various surfaces, and more.

Helpful Hint

When choosing an industrial masking tape, keep in mind the location of the job, the surface to which the tape will be applied, how long the tape will be on the surface, and the type of application.

ST-3

General purpose grade, medium-high adhesion masking tape that is 4.8 mils thick. For use on multiple surfaces.

ST-10

Utility grade, high adhesion masking tape that's 4.6 mils thick, for non-critical applications.

ST-4

Contractor grade, high adhesion masking tape that is 5.2 mils thick. Ideal for applications that demand quick stick and conformability.

ST-6

Premium grade, high adhesion masking tape that's 6.4 mils thick. For industrial and automotive paint applications.

Flatback/Splicing Tapes

Our flatback and splicing tapes offer a combination of strength, high tack and durability for a variety of applications, including splicing, packaging, and paper tube and core manufacturing.

ST-34

High performance grade flatback kraft paper tape for use in the paper, tube and core manufacturing industries. 6.5 mils thick.

ST-28

Packaging premium grade bleached flatback paper tape that's 7.5 mils thick, with a rubber-based adhesive. Ideal for splicing and packaging applications.

Helpful Hint

How and where the packaging tape will be applied, the temperature at which the tape will be applied or stored, and regulatory requirements are all factors to consider when choosing the right tape.

From light to heavy weight carton closure and palletization applications, our packaging and strapping tapes are constructed for quality and security, delivering reliability with each and every use.

Carton Sealing

ST-450-1

Economy grade hot melt packaging tape that's 1.6 mils thick, for light-weight case sealing applications.

ST-450-2

Production grade hot melt packaging tape for medium-weight case sealing applications. 1.8 mils thick.

ST-450-5

Heavy duty grade hot melt packaging tape that's 3.0 mils thick. Ideal for sealing heavy, bulky cartons subjected to high stress or extreme handling conditions.

Reinforced Filament

ST-123

Economy grade fiberglass reinforced strapping tape that's 4.5 mils thick. For light duty strapping and packaging.

ST-125

Utility grade fiberglass reinforced strapping tape for general purpose strapping and palletizing jobs. 5.2 mils thick.

ST-127

Industrial grade fiberglass reinforced strapping tape that's 5.4 mils thick. Use for medium duty strapping and palletizing jobs.

ST-129

Premium grade fiberglass reinforced strapping tape that's 6.7 mils thick. Use for heavy duty strapping and palletizing jobs.

Helpful Hint

When choosing a duct tape, be sure to consider the type of application, the surface to which the tape will be applied, and for how long to help pick the right tape for the task at hand.

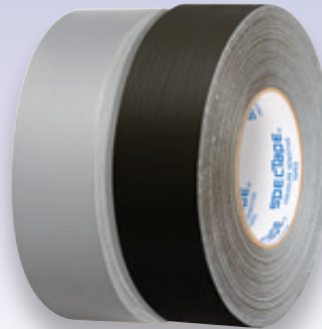

You demand strength and durability. And we deliver with our line of duct tapes that are built for easy handling to tackle a range of jobs, from bundling, seaming, and sealing to holding, repairing and more.

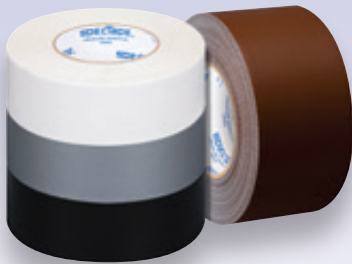

ST-269

Contractor grade 9.0 mil duct tape for use across a variety of applications, surfaces and weather conditions.

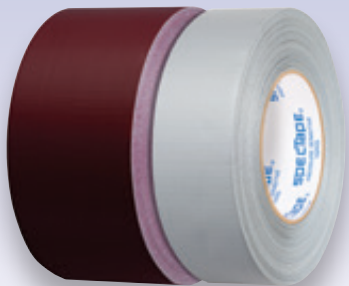

ST-260

Premium grade 12.5 mil cloth duct tape used in stucco masking, as well as applications that require a highly conformable, strong tape.

ST-264

Performance grade 10.0 mil cloth duct tape for applications that demand excellent tack, conformability and holding power. Also available in a variety of colors for discreet repairs.

ST-261

Contractor grade 9.0 mil duct tape for general repair applications. Also available in a variety of colors for discreet repairs.

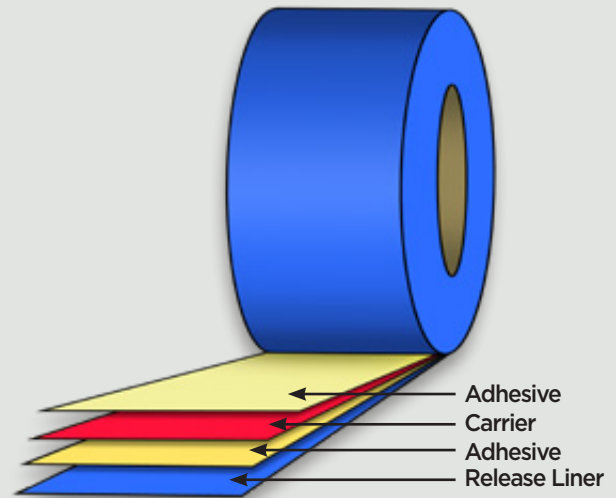

SPECTape®

Double Coated Tapes

SpecTape carries a wide range of double coated tapes for use in many industries including Construction, Fabrication, Manufacturing, Electronics, Foam Fabrication, Graphic Arts, Transportation, and General Product Assembly. We can design and develop double coated tapes using various carriers and adhesives specific to your application.

Applications

- Sealing
- Splicing
- Bonding
- Bag closure
- General applications in the automotive, heavy equipment, aerospace, building & construction, medical, graphic arts, and product assembly industries
- Mounting nameplates and wall mounted devices
- Sound control
- Cushioning and protection
- High/low temperature
- Golf grip
- And many more!

How Wide is The SpecTape Spectrum?

Much wider than what you see here! This Product Guide shows you only a small portion of our line of specialized tapes. Actually, the SpecTape line is bound only by your specific needs...your own imagination... your particular tape problems. Problem solving is our biggest specialty. We tackle (and handle) those difficult, unusual tape problems. So, if you don't see a solution to your tape problem in this Product Guide, contact your local SpecTape distributor. You'll probably discover the answer among hundreds and hundreds of other SpecTape products.
